ABOUT ME

- As a dedicated professional with over a decade of expertise in web development, I bring a rich blend of experience and skill to the table. My excellent communication abilities complement my role as a reliable team player, capable of adapting seamlessly to various work environments. I am eager to leverage my extensive knowledge and continue to grow by contributing to a reputable and well-established company.

WORK EXPERIENCE

- SR. FRONT-END DEVELOPER | JAN 2024 - PRESENT

NTT DATA, BRAZIL

- Lead the development of modern and responsive user interfaces for Hybris Commerce platforms, ensuring an attractive and intuitive user experience.
  - Work closely with cross-functional teams, including back-end developers, designers, and other stakeholders, to translate business requirements into effective technical solutions.
  - Execute performance optimizations, ensuring that applications are fast, efficient, and scalable, providing a superior user experience.
  - Stay updated with the best practices in Front-end development, incorporating them into solutions to ensure code quality and maintainability.
  - Tackle complex technical challenges by proposing and implementing innovative solutions to ensure project success.
- FRONT-END DEVELOPER | MAR 2021 - DEC 2023

LEVEL UP INTERACTIVE, BRAZIL

- Ensure successful delivery of projects and promote the long-term technical health of our services.
  - Design, develop, test, deploy, maintain, and improve services focusing on performance, scalability, and stability.
  - Partner with product and design to build highly responsive, intuitive, and sleek experiences that will delight customers and set a high bar for all web applications.
  - Support existing systems looking to enhance functionality, increase scale, and transform in new ways to meet our product demands.
  - Create new services and capabilities to meet emerging needs as our business grows.
- SAP C/4HANA FRONT-END DEVELOPER | MAY 2018 - MAR 2021

FH CONSULTING/NTT DATA, BRAZIL

- Front-end development for international and national e-commerce, B2B / B2C customers using an SAP C/4HANA platform.
